EXPECT THE BEST

Advantages/key features

- Long barrel compared to total length of the rifle (60% of the total length of the rifle is barrel length)
- Barrel thread 1/2" - 28 compatible with all M4/AR-15 flash suppressor devices
- Removable pistol grip, compatible with all M4/AR-15 pistol grips
- M-LOK mounting system on front handguard on 3 positions: 3 o`clock, 6 o`clock, 9 o`clock
- Ambidextrous dual system of sling attachment
- Integrated front / rear flip-up sights (mechanical sights are user adjustable without tools)
- Adjustable gas cylinder: "N" for normal mode and "S" for suppressor mode
- Reversable ejection system (ejection side can be switched without additional parts and tools)
- Low recoil force - center of mass is in the middle of the rifle
- Non-reciprocating charging handle
